Supplying and working alongside Super Yacht Crew over the years, we noticed that there was something missing from your Wine and Champagne orders... wine for you hard-working Yachties!!

While Bosses and Charter Guests can take their pick of the most exclusive, and downright delicious, wines on the planet, all too often the Crew are left to scour the shelves at your local 'Supermarche' for anything that fits the Crew Budgets. Well, we've had enough!

We don't guide you through WSET qualifications just to leave you at the mercy of the caviste at Carrefour!

To right this wrong, back in 2015 we came up with our Crew Wine List. A selection of wines from around the world and a little taste of home for some (but better quaffing for everyone)! Having listened to the feedback from you, the Crew, we have changed our range slightly, including a larger selection of reds & whites at just 5.00€ inc. tax!!

We hope that there is a little something for everyone in this selection but do let us know if there is anything missing that you'd like to see on future lists and we'll do our best to find it.

Stocks of these wines are limited and once they're gone, they're gone. If you miss out on a particular wine then we will always recommend suitable alternatives which match the wine style and price-point of your original choice.

*These wines can be delivered free of charge with your Boat / Charter orders.*

## **FWW Fabulous Fivers!**

*Keeping with our policy of listening to what you Yachties want and need, we've heard that Crew Wine budgets can be as low as 5€ per bottle... seriously limiting your down-time quaffing choices!*

*We've done the hard work for you, trying and testing countless wines in order to bring you the best wines we can find from around the world at this price point – you're welcome ;)*

*All of these wines come in at just 5.00€ per bottle including tax!*
